

LOC
Lines of Code

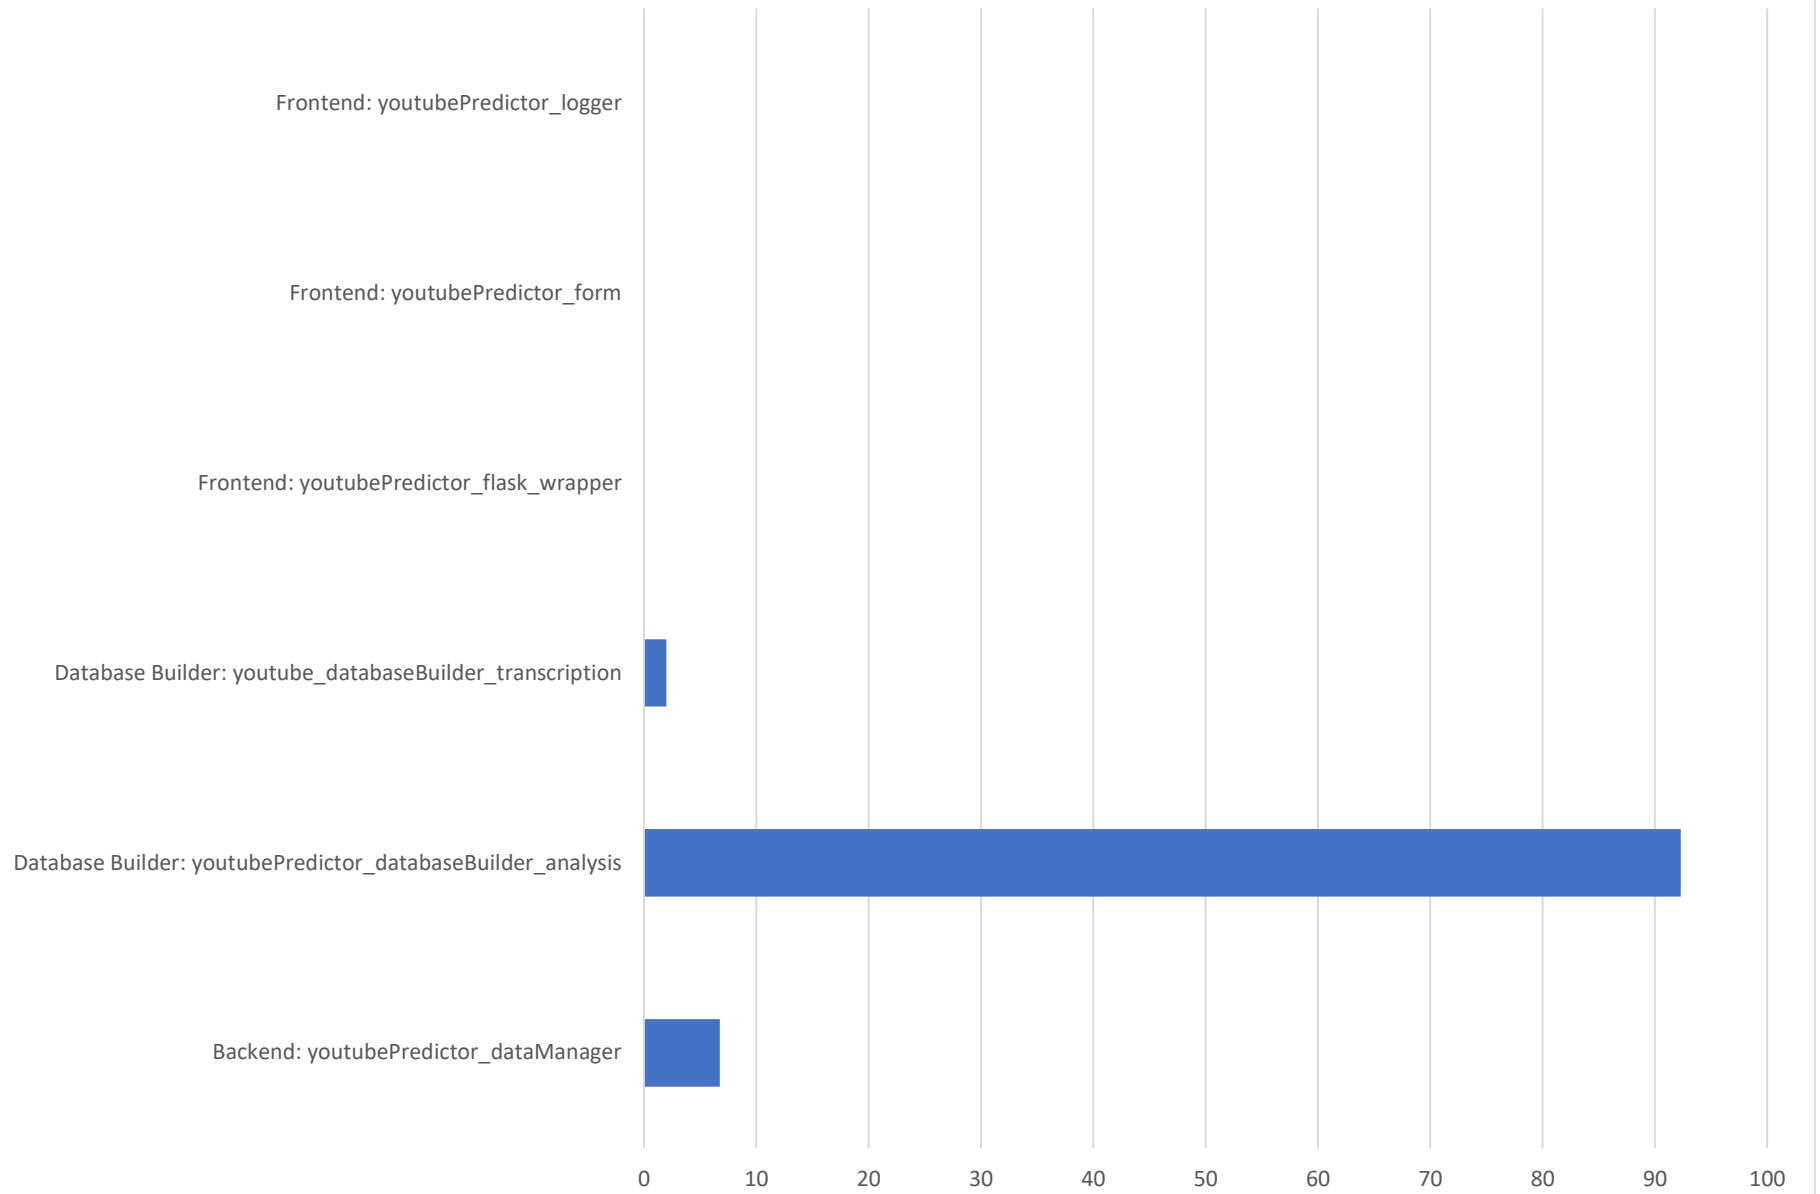

LLOC
Logical Lines of Code

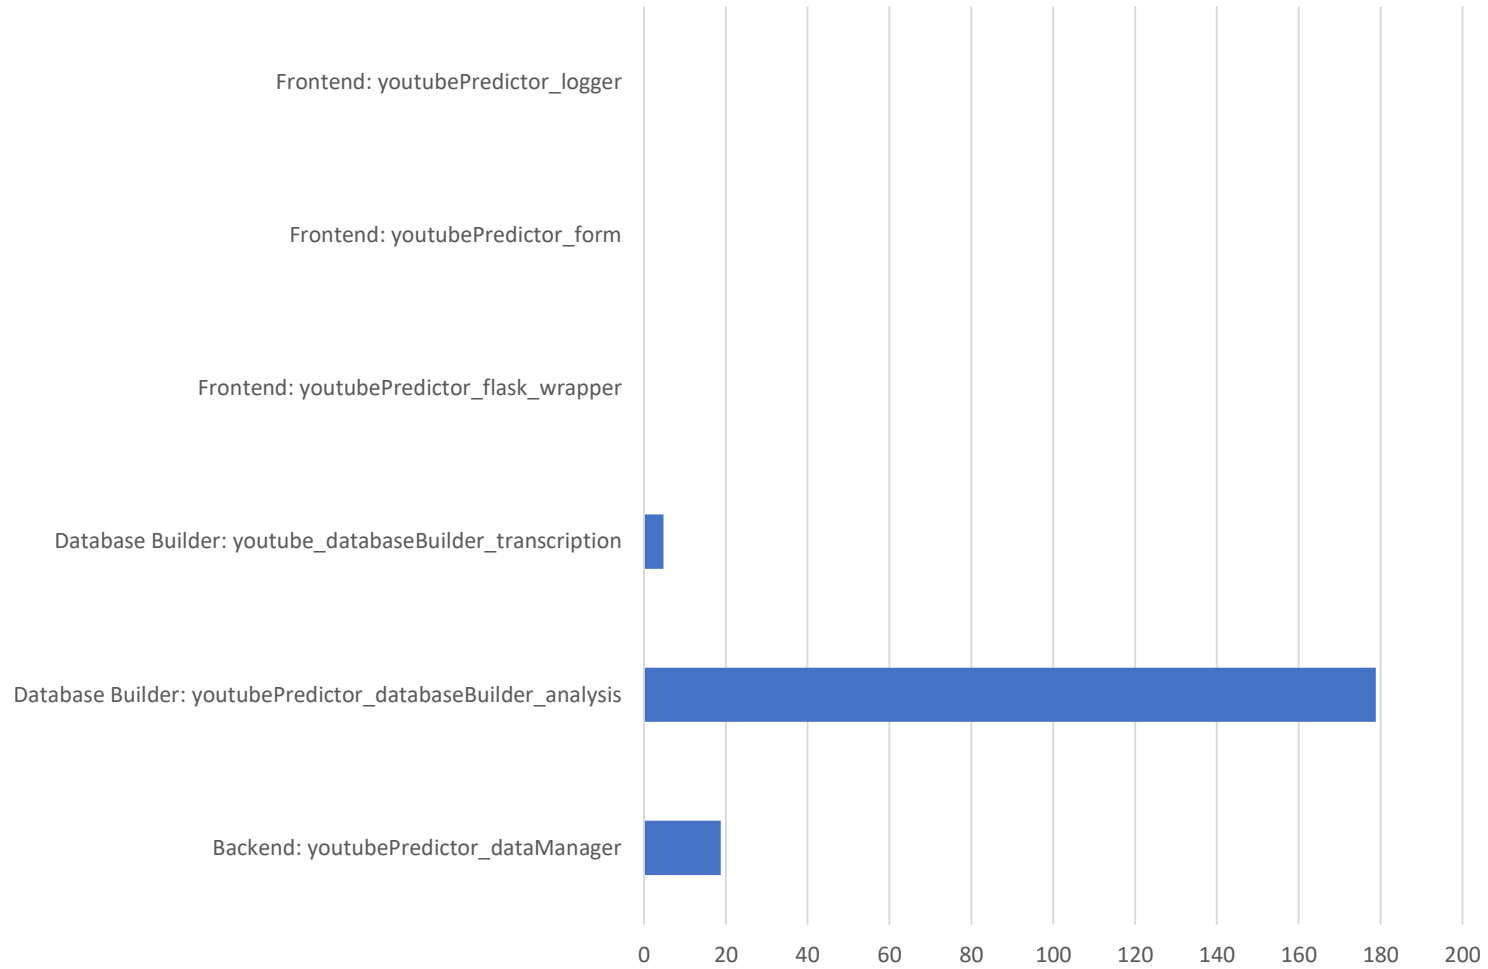

SLOC
Source Lines of Code

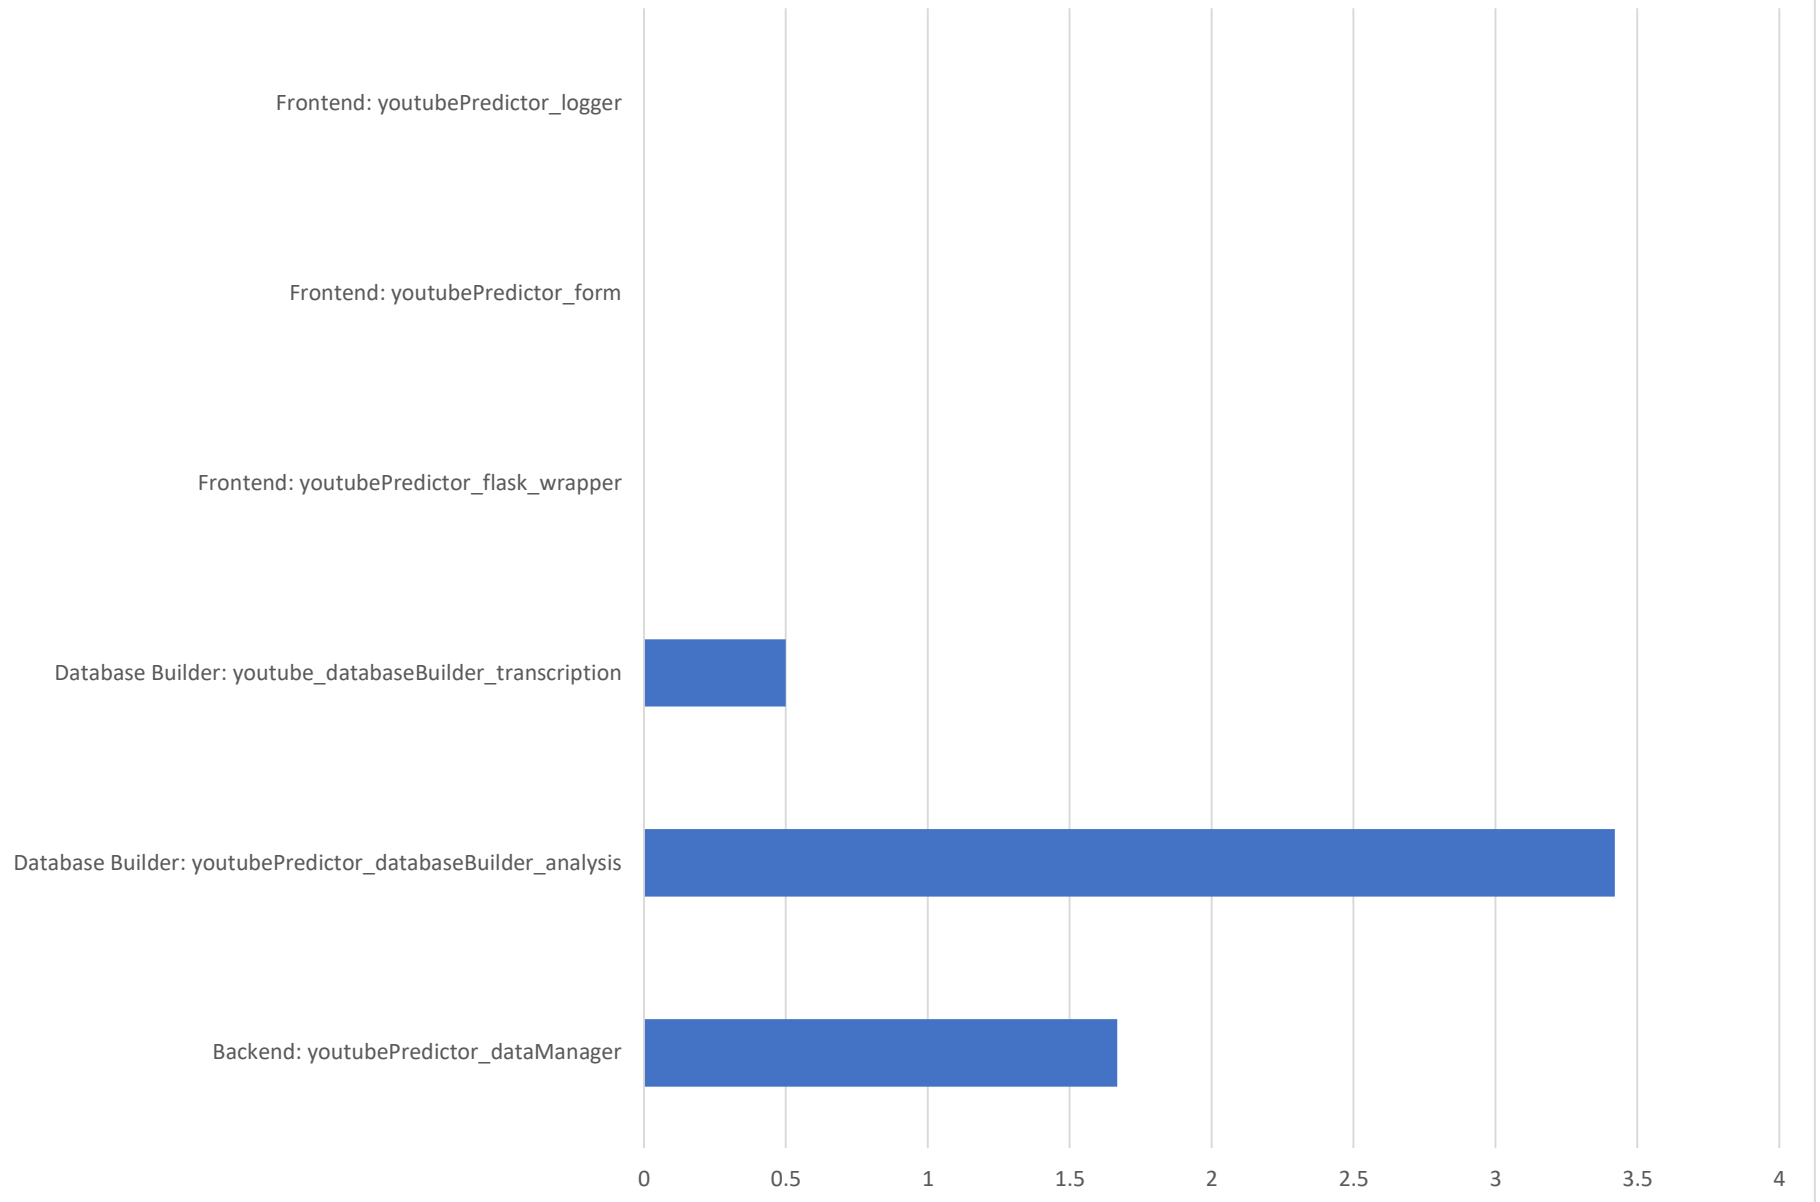

Halstead Program Length
sum of total number of operator and operand occurrences

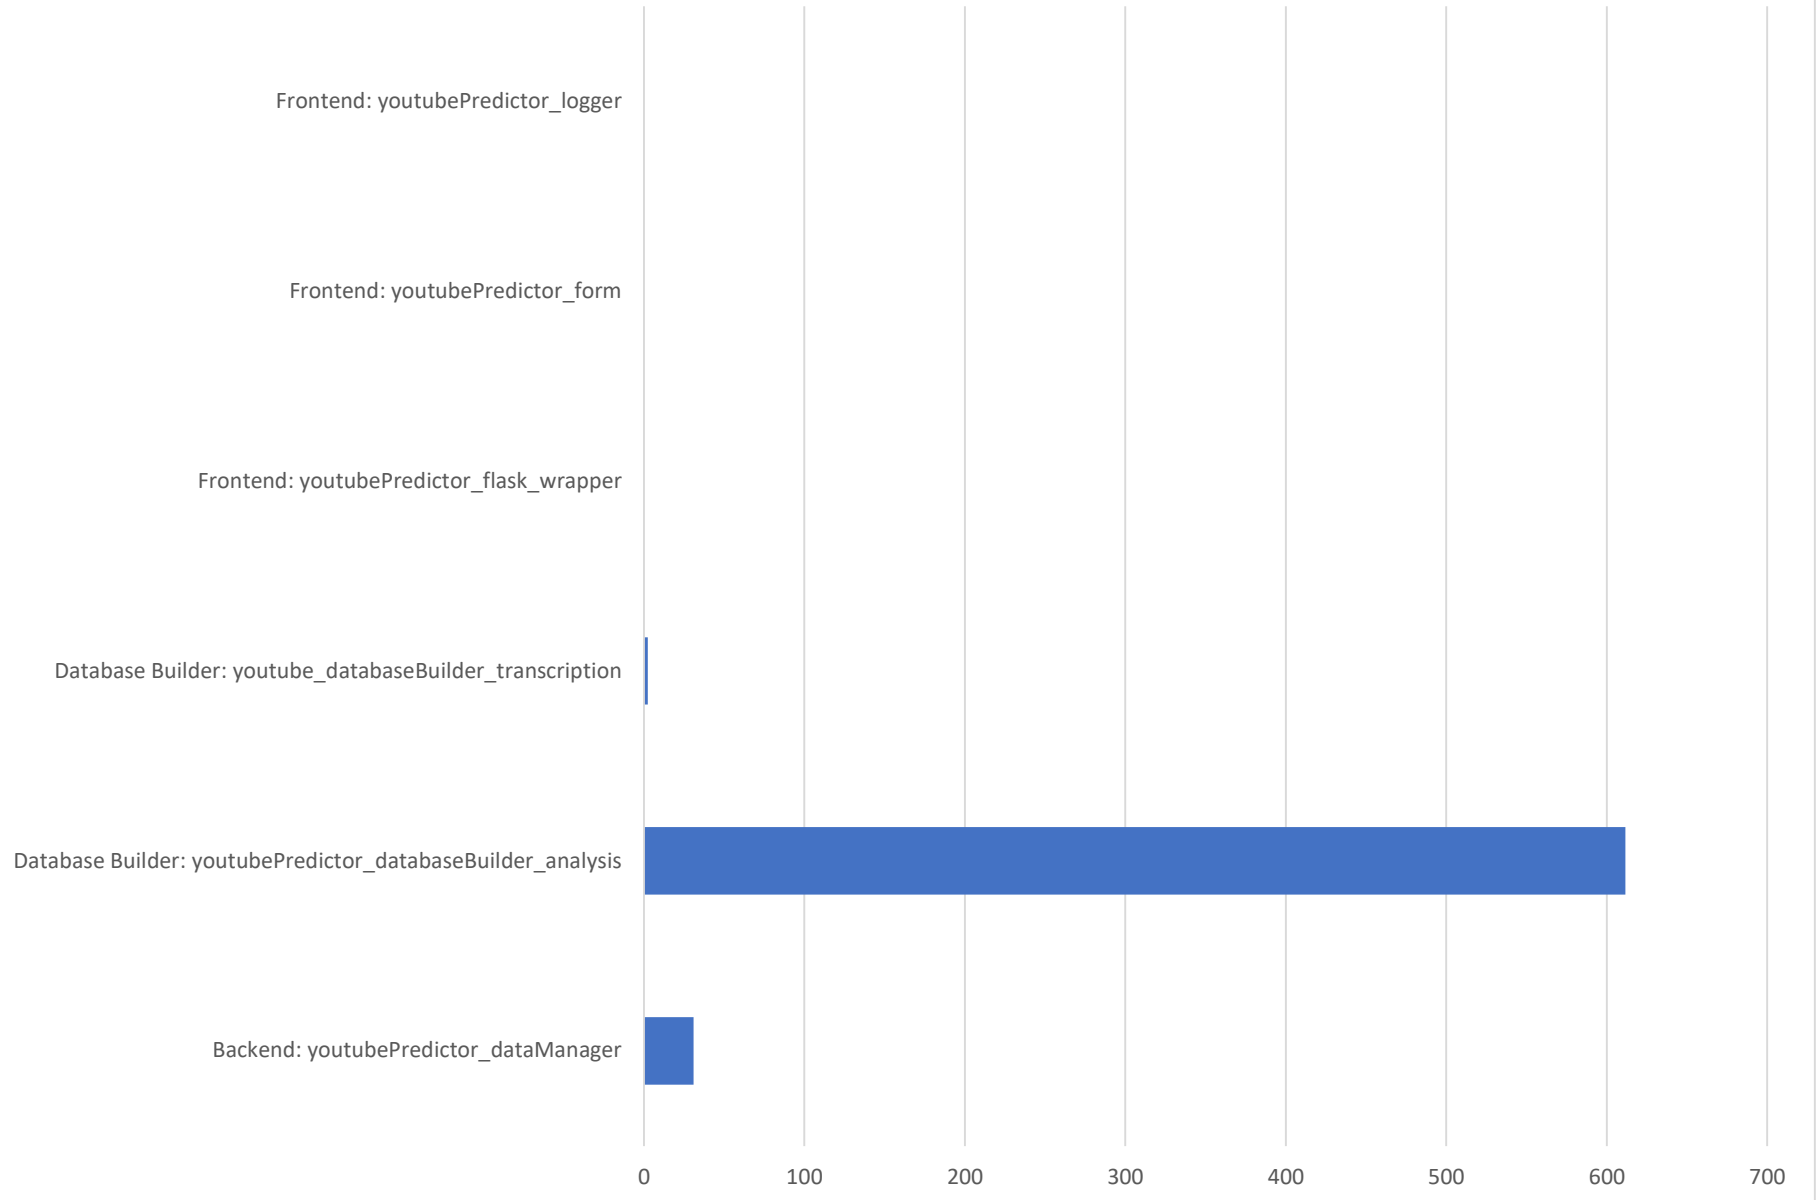

Halstead Volume
size in bits of space required for storage

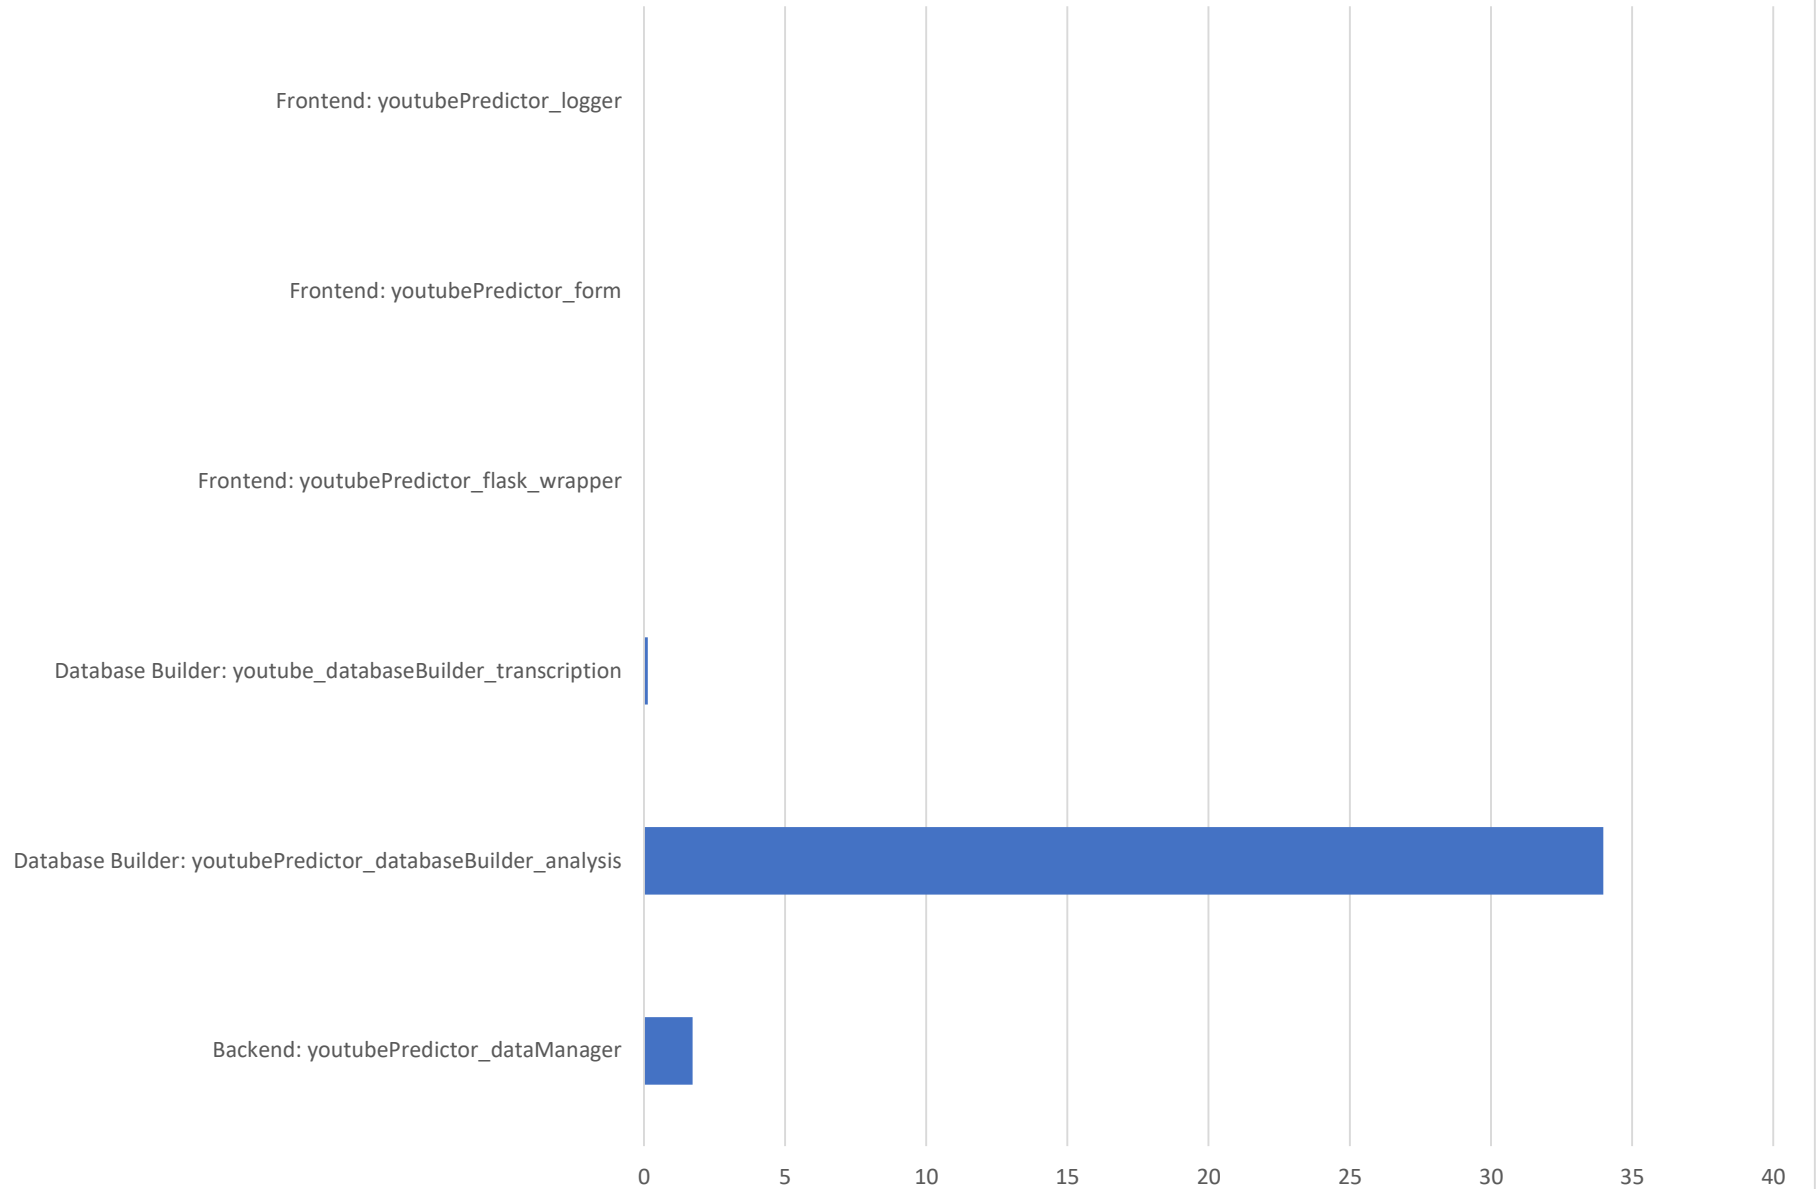

Halstead Difficulty
inverse proportional relation to level of abstraction of programming language

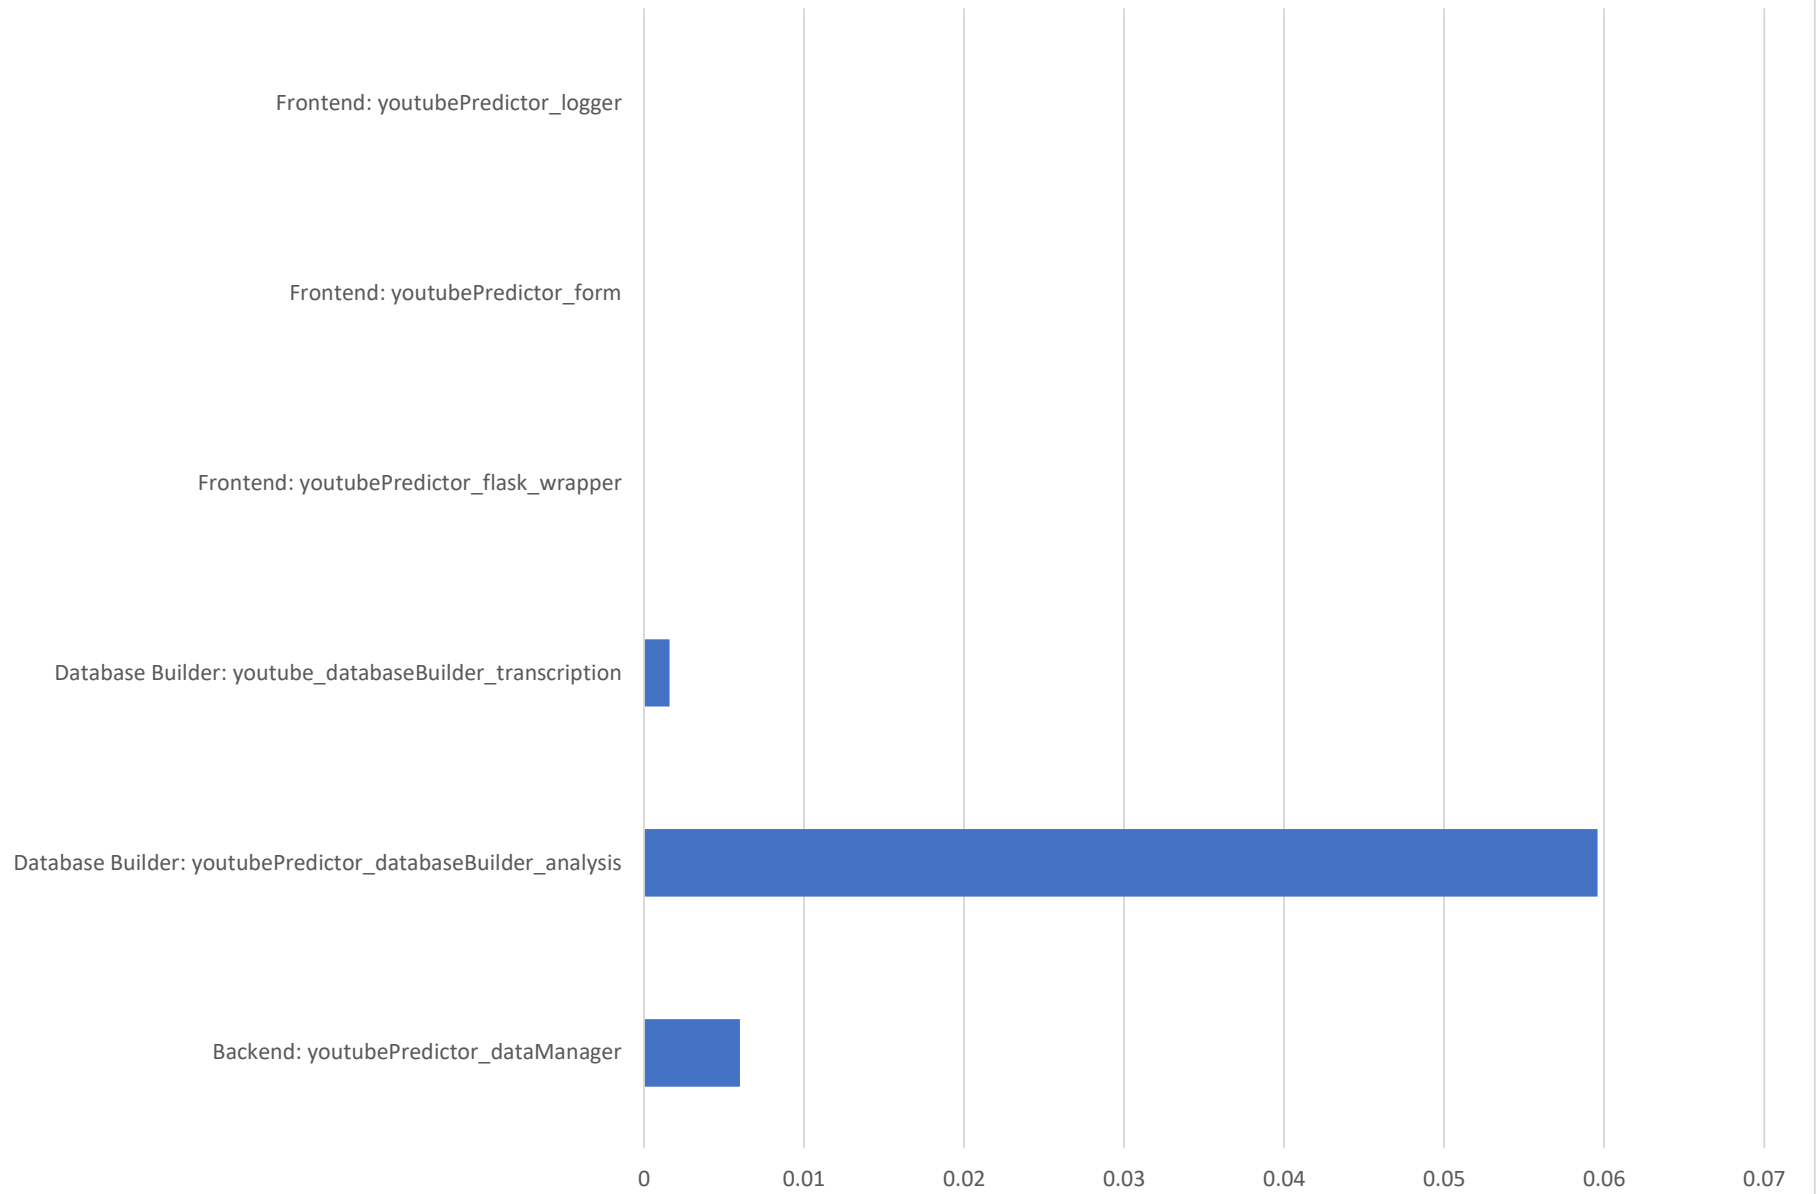

Halstead Effort
product of difficulty times volume

Halstead Time
time in minutes required to translate the algorithm into programming language

Halstead Bugs
estimation of percentage of bugs proportional to volume

Halstead Vocabulary
number of unique occurrences of operators and operands
