jiNx in Retrospect

Plans for the next Phase

- Tools
  - Continue finetuning Machine Learning Algorithms
  - Expand Frontend for improved user experience
- Methodologies
  - Implement XRay testing to provide a means of User Experience Testing
  - Shift to GPT3
- Discipline
  - Better time management - no more burning the candle at both ends
- Process
  - Implement bi-weekly code review to better manage code base
  - Consider adding Burndown charts
- Team
  - Recruit a Data Scientist with a substantial background in modeling to assist in further development of Machine Learning Algorithms
